

## Property Access Authorization for Investigation of Disposal Site

I hereby authorize California Integrated Waste Management Board (IWMB) staff, their designated contractors and representatives, and other affected State and local authorities access to: provide site address and assessor parcel number. The purpose for access is to: provide a brief statement specific to the site and tasks involved. IWMB shall cause its contractor to name me as an additional insured by endorsement to its liability insurance policy, which includes indemnification and property damage provisions. This investigation is authorized by Public Resources Code (PRC) Sections 44100 and 45013, and 14 California Code of Regulations (CCR) Sections 18083-18084, which requires Local Enforcement Agencies to investigate, inspect and enforce state minimum standards at closed, illegal and abandoned disposal sites.

This authorization shall begin on provide date and shall expire on provide date unless extended in writing. I have been advised that since I am the property owner, if methane gas releases are determined to be occurring at levels which exceed state minimum standards, the Local Enforcement Agency may consider me responsible for implementing a gas control remediation plan at the property. Nevertheless, I understand that signing this authorization is not an admission of any liability or responsibility for gas control or other cleanup of the property.

I certify that I am the legal owner or authorized agent of the legal owner of the above property and have authority to grant such access.
